

Pulsating Toothbrush

Oral-B Triumph with Wireless SmartGuide Electric Toothbrush

The Oral-B ProfessionalCare 9900 Series features the most advanced power toothbrush ever created. With wireless remote display designed to provide while-you-brush feedback to promote good brushing habits and help you brush for the recommended 2 minutes twice daily. The combination of highspeed pulsations and the oscillating rotating technology pioneered by Oral-B has been shown to reduce plaque and gingivitis more effectively than a manual toothbrush.

Clinically Proven Benefits

- Use an Oral-B ProfessionalCare 9900 Series toothbrush twice daily to:
- + Improve the health of your gums by reversing the effects of gingivitis¹
 - + Help prevent gum disease¹
 - + Help prevent the buildup of tartar³
 - + Naturally whiten teeth by removing coffee, tea, and tobacco stains³

Product Features

3D Excel Brushing Action: With two simultaneous brushing motions, the Oral-B ProfessionalCare 9900 Series cleans deep and removes significantly more plaque than a manual toothbrush.¹

Pulsations: The brushhead moves in-and-out 40,000 times per minute reaching deep to loosen plaque. At over 660 movements per second, it's the fastest pulsating toothbrush in the world!

Oscillations: Simultaneously, the brushhead moves side-to-side 8,800 times per minute to whisk away the plaque.
