

Our office is now offering a new service that can improve your existing smile. Snap-On Smile is an appealing treatment option that can easily update your current smile and can also replace missing teeth. This patented, revolutionary dental appliance requires two visits with no drilling, no shots, and no change in tooth structure.

It is an excellent choice for:

- Gaps, crooked, stained or missing teeth
- Anyone who would like a more appealing smile without the discomfort of complex dental procedures
- Anyone who has an old-fashioned removable partial denture and wants another comfortable alternative

Snap-On Smile is an affordable and non-invasive customized dental appliance that is thin and strong with the look of natural teeth. You can eat and drink with your Snap-On Smile. It is easy to care for and it can be a temporary or permanent solution for upper and lower teeth. It simply snaps into place over your existing teeth for an easy solution to restore your smile.

Please call our office today for a complimentary exam at (408) 377-5833.

It's Easy. It's Painless. You can start now !!

~Just choose your style and shade of your new teeth.
